EXCELLENCE IN EVERY DETAIL

Founded in 1990, Fibrafort is considered the largest manufacturer in South America in terms of units produced. There are more than 18 thousand boats already produced - from 18 to 42 feet - satisfying consumers all over the world.

In addition, it has the largest network of resellers and technical assistance in the national market and is present in 43 countries, conquering new markets every day.

PORSCHE CONSULTING PARTNERSHIP

The partnership between Fibrafort and Porsche Consulting has added even more quality and sophistication to the boats made at the shipyard, because through the knowledge of Porsche Consulting, we have reformulated processes and projects ensuring operational excellence.

Porsche Consulting
Strategic Vision. Smart Implementation.

DESIGN

Modern and surprising design

Numerous differentials are on board in this launch, but the impressiveness of the outboard engine, with the sporty lines of the navigation make the design of the Fibrafort 370 GTX even more grandiose on the water.

CABIN

Cozy nights await you

You may be sailing, but you will feel in heaven with so much comfort. Each cabin space, which can accommodate up to 4 people, was designed so that your comfort and tranquility are extreme.

COMMAND CENTER

Everything you need to sail

The 370 GTX adapts to your navigation style, which means it offers several variations of control and also has a 360° view that makes navigation even more comfortable and safer.

GTX

DIFFERENTIALS

Navigate efficiently and with the best performance

- Outboard engines following international standards
- Agile and easy maintenance
- Well-planned and functional cabin
- 10 years warranty
- ABNT/ACOBAR certification
- Innovative and sporty design
- Full and open bow
- 360° pilot view

BOW

Enjoy the freedom

A complete space for you to receive family and friends with comfort and safety. The guardrail is high and well planned to accommodate everyone, in addition to several options that make the environment even more pleasant for your day on board.

STERN

Big differentials await you

The stern of the Fibrafort 370 GTX was designed to receive the two outboard engines and still maintain space for circulation and use. With that in mind, it got an extended platform that embraces these engines, with a safe ladder and the possibility of a functional support table.

COCKPIT

Your space for everything

The cockpit has a wide circulation and comfort area that allows you to live your best moments. Everything here was designed to prioritize the ergonomics and practicality that only a Fibrafort has.

ALL THE COMFORT OF A YACHT,
ALL THE SPEED OF AN OFFSHORE.
